

MEng Aeronautical Engineering 3 - Group Design Project

Teamwork Skills Workshops – 12th & 13th May 2025

Dear Aero Eng 3 students,

I hope you are well. Your design project team will be attending a Teamwork Skills session next week on either Monday 12th or Tuesday 13th May.

Pre-work

To get the most out of next week's skills session, please complete the pre-work below.

The Teamwork Skills Workshop is designed to help your project team collaborate as effectively as possible.

We'll also explore how individual personality differences impact team dynamics. While many models explain how people work together, this session will focus on the Myers-Briggs Type Indicator (MBTI), based on the theories of Swiss psychiatrist Carl Jung.

The MBTI is the most widely used personality assessment and is commonly employed by organizations, including during recruitment processes.

Task 1 – Online questionnaire

Please do the 'Personality Type Indicator' questionnaire. Go to my-personality-test.com and click on

START TEST

It's based on the MBTI framework and takes around 10 minutes to complete. Some questions may seem repetitive, but please answer them honestly—there are no right or wrong answers.

Task 2 – **Make a note of your results**

At the end of the questionnaire, you'll receive a four-letter code known as your *MBTI Reported Type*. This type reflects four key dimensions of your personality: how you are energised; how you prefer to take in information; how you make decisions and how you deal with the world around you.

The table below shows the 4 different dimensions to which you can map your *MBTI Reported Type*.

EXTRAVERSION	+	INTROVERSION
Where do you get your energy from?		
SENSING	+	INTUITION
What kind of information do you prefer to use?		
THINKING	+	FEELING
What process do you use to make decisions?		
JUDGING	+	PERCEIVING
How do you deal with the world around you?		

Your Design Project team will likely include a mix of personality types. Understanding these differences can help you appreciate each other's strengths and collaborate more effectively.

Task 3 (optional) – Watch short videos on E v I and J v P

During the workshop, we'll focus on the first letter (**E** or **I**) and the last letter (**J** or **P**), as these dimensions often have the most noticeable impact on team dynamics and performance.

To help you understand these traits, please watch the videos linked below.

I've also included optional videos on the middle letters (**S/N** and **T/F**)—these are interesting but won't be a major focus in the session.

(Note: I've trimmed the start of each video to skip the generic introductions, but you may still need to 'skip ads'.)

- [Extroversion V Introversion](#)
- [Sensing V iNtuition](#)
- [Thinking V Perceiving](#)
- [Judging v Perceiving](#)

Thanks very much. I look forward to seeing you there. Best wishes,
Mark
