Aeronautics Group Design Project - Teamwork skills pt 1

Mark Allen
Careers Consultant

Today we will be...

- Building knowledge of the attributes of successful teams
- Exploring individual difference within teams
- Collaborating on group tasks in your project design team
- Exploring good practice in teams

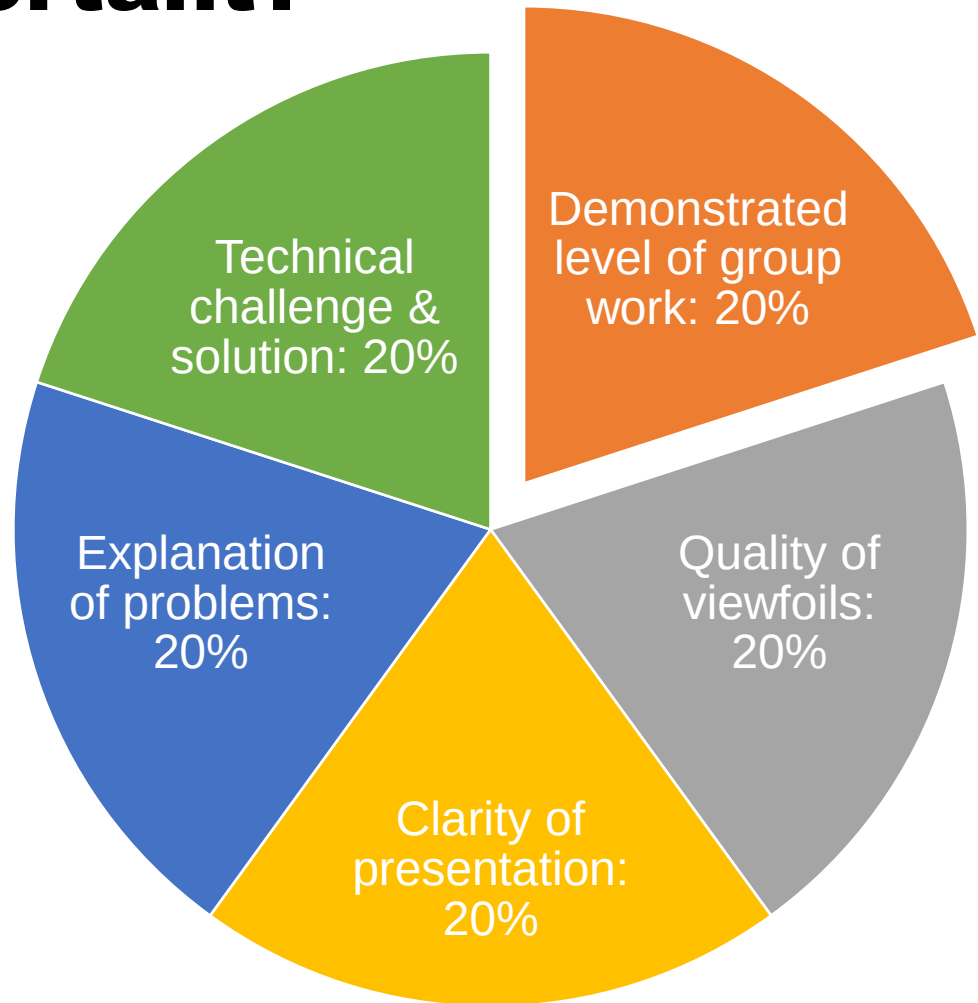

Design project presentation (1.5 hours) : - marking criteria

Why is this important?

“A well presented group presentation should make reference to how you interacted, collaborated and addressed issues together”

**Senior Teaching Fellow
Aeronautics Department**

Soft Skills Companies Need Most

-  Creativity
-  Persuasion
-  Collaboration
-  Adaptability
-  Emotional Intelligence

Employers' core skills – Top 10

Analytical thinking

Curiosity & lifelong learning

Creative thinking

Technological literacy

Talent management

Motivation & self-awareness

Leadership & social influence

Empathy & active listening

Resilience, flexibility & agility

Service orientation & customer service

Employers' core skills – Top 10

Analytical thinking

Curiosity & lifelong learning

Creative thinking

Technological literacy

Talent management

Motivation & self-awareness

Leadership & social influence

Empathy & active listening

Resilience, flexibility & agility

Service orientation & customer service

Why is this important? **- Skills within teamwork**

33% of Employers believe graduates have less than expected skills for negotiating and influencing

37% of Employers believe graduates have less than expected skills for of dealing with conflict

51% of Employers believe graduates have less than expected skills for managing up

Individual Differences within teams

The MBTI

A framework for discussing personality

Looks at patterns of normal behaviour

Style, not ability or skill - No good or bad types

YOU decide your type

What were your MBTI questionnaire results?

Go to www.menti.com and use the code 7489 9477

MBTI Gifts & Blind Spots

<http://bit.ly/MBTIGABS>

The MBTI Dimensions

EXTRAVERSION

INTROVERSION

Where do you get your energy from?

Today

JUDGING

PERCEIVING

How do you deal with the world around you?

The MBTI Dimensions

EXTRAVERSION

INTROVERSION

Where do you get your energy from?

Where do you put your attention and get your energy?

From the MBTI - Extraversion & Introversion

There is a world inside ourselves, and a world outside ourselves. When dealing with the world outside of ourself we are 'extraverting'. When inside our own minds, we are 'introverting'.

We are extraverting when we:

- Talk to other people
- Listen to what someone is saying

We are introverting when:

- Reading a book
- Are aware of how we feel
- Think through a problem to understand it

The distinction is which world we live in more often and which world energises or tires us

Where do you put your attention and get your energy?

- EXTRAVERSION
 - External/exterior
 - Outside thrust
 - Talk thoughts out
 - Breadth
 - Involved with people, things
 - Interaction
 - Action
 - Do-think-do
- INTROVERSION
 - Internal/interior
 - Inside pull
 - Keep thoughts in
 - Depth
 - Work with ideas, thoughts
 - Concentration
 - Reflection
 - Think-do-think

★★

Things to be aware of

E preference

- Often comfortable working in groups, good at getting discussions going, and making things happen.
- Might jump too quickly into activities and may be more prone to not thinking things over first.

I preference

- Often think things through more thoroughly and have a clear idea of what they will do when they act.
- Might spend too much time reflecting rather than action, and sometimes forget to check their ideas with others as thoroughly.

Both Es & Is

Looking forward, think how you ensure your team environment is inclusive of all E & I preferences

The MBTI Dimensions

JUDGING

PERCEIVING

How do you deal with the world around you?

**

The ways people like to organise their lives

From the MBTI - Judging & Perceiving

In the context of personality types this refers to our attitude towards the external world, and how we live our lives on a day-to-day basis

People who have a Judging preference want things to be neat, orderly and established

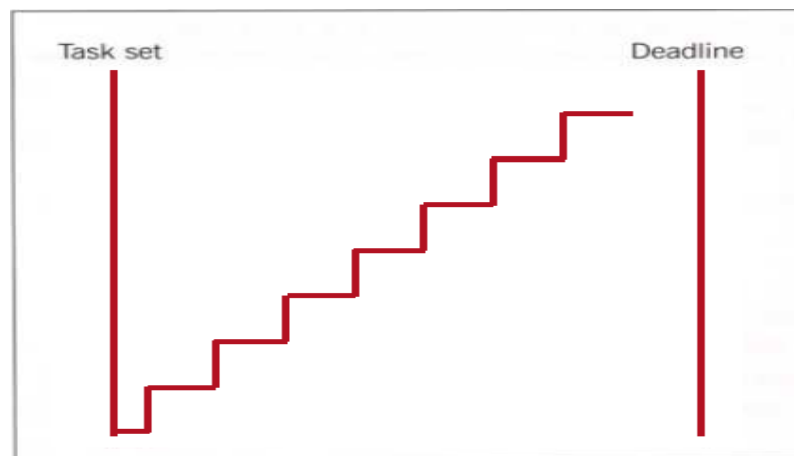

People with a Perceiving preference want things to be flexible and spontaneous

Judgers want things settled, Perceivers want things open-ended

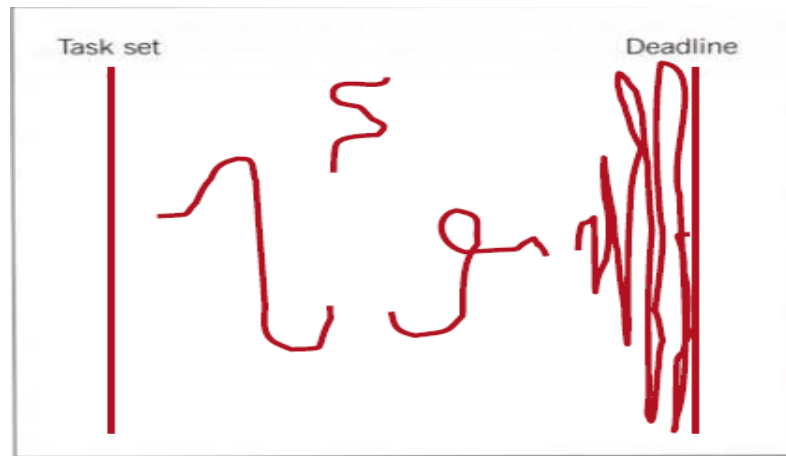

Judging & Perceiving - operating in life

J

- Plan step by step
- Follow a pre-decided plan or method
- Have a clear structure
- Like to come to closure

P

- Wait to see what emerges
- Respond flexibly in the moment
- Prefer to be spontaneous
- Work out what's needed along the way

How do you organise your life?

JUDGING

- Decide about information
- Regulate
- Control
- Settled
- Run one's life
- Set goals
- Closing off
- Organized

PERCEIVING

- Attend to, gather information
- Flow
- Adapt
- Tentative
- Let life happen
- Seek options
- Opening up
- Flexible

Things to be aware of

J preference

- Often comfortable working in a planned and structured approach. Work first and play later mindset makes them good at being disciplined and decisive.
- Can find changes to plans stressful and may come across as inflexible and domineering.

P preference

- Often relaxed and flexible, and adept to new and unexpected situations. May have a play now, work later mindset and, to keep options open, may make choices only when necessary.
- Can find daily routines frustrating and might come across as unreliable and flaky.

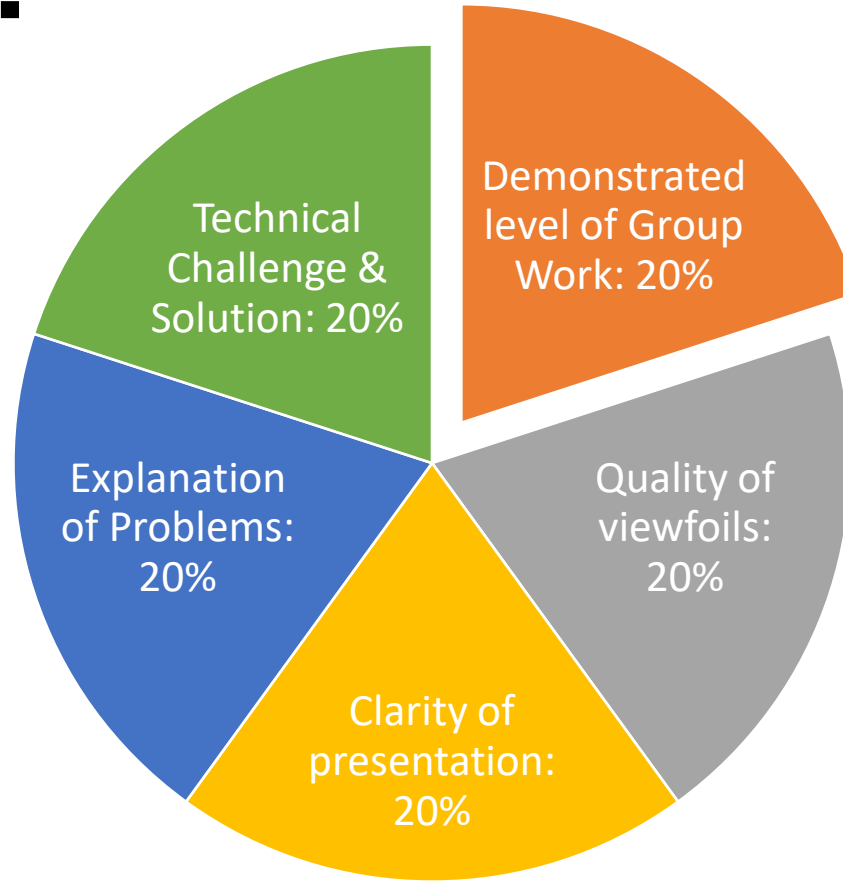

Both Js & Ps

Looking forward, think how you ensure you are inclusive of all J & P preferences

Earlier we mentioned the marking criteria...

...now for your final exercise

Set a reminder for June 10th

Include:

1. What you aim to contribute to your team and hope is highlighted in the final presentation
2. What personal growth you want to achieve during the project

Looking forward...

Follow up session
- Tuesday 10th June

We will be focusing on:

- What you gained and learnt from your design project experience
- How to use this during the recruitment process

Today we have...

- Built knowledge of the attributes of successful teams
- Explored individual differences within teams
- Collaborated on group tasks in your project design team
- Explored good practice in teams

Any questions...?

...Thank you and good luck
